BIG GIFT TO NEW THEATRE

W. K. VANDERBILT WILL PAY FOR THE \$50,000 FOYER.

It Will Be an Elaborate Lounging Place With Concerts and Art Shows in the Long Intermission-He Also Presents tive Paintings for Its Ornament.

William K. Vanderbilt, president of the New Theatre Company, has presented the organization with the foyer, which is intended to be one of the striking features of the new building. When Carrère & Hastings planned the theatre this foyer was included, but the expense of decorating it, which exceeded \$50,000 in the estimate, seemed beyond the means of the builders. Now Mr. Vanderbilt has offered to pay for the foyer as a gift to the New Theatre, and in addition has presented five valuable paintings for the

decoration of the ceiling.

The foyer was an especially important feature, as it is one of the plans of the founders of the institution to make the public use the foyer, which has never been done before in this country. The arrangement of the triple stages at the New Theatre will make it possible to change the scenery in a very short time and it is intered to have most of the intermissions very brief. But at least one intermission during the evening will last for half an hour, and then it is inrended to use the foyer.

Over the stage of the New Theatre will be an electric sign which lights up when the curtain falls to indicate the length of the intermission. None of these entr'actes will last more than a few minutes except the long pause, which is copied after the plan of the foreign theatres. As originally designed the foyer opens

with three doors on the main corridor of circulation, which runs behind the boxes and was a long room 120 by 20. Five windows open onto Central Park West on the façade of the theatreland one flight up. Now this plan has been changed through the generosity of Mr. Vanderbilt. The long room has been divided into three parts. At either end of the foyer have been placed four pilasters which divide the room into three parts-a long corridor in the centre and two small spaces at either end. They are raised three feet above the level of the central space, and in the Sixty-third street end of the foyer there will be a concert of high class music during the long intermission. At the other end there will be a changing loan exhibition of objects of theatrical art—pictures, statues or whatever the founders may provide. It is expected that there will be no lack of appropriate and interesting objects to be placed in this end of the foyer.

It has been decided to decorate the foyer in yellow and gold, although the general effect apart from the ornamentation of the ceiling will be simple. There will be a wainscoting of marble about the walls. and above this will be silk stuff stretching to the ceiling. It is expected that there will be tapestries loaned to hang over these walls. There will be no furniture in the fover, apart from several benches that will be placed between the doors leading into the theatre. The high vaulted ceiling is thirty-five feet from the floor at its highest point. In the central section will be placed the five paintings by Baudry representing scenes in the myth of Cupid

SOUTH ORANGE PARTY AFTER THE COMMUTER VOTE.

Spelibinding Will Begin This Morning on the Way to the City-It's Ira A. Kip, Jr.'s, Idea-He's a Candidate for Village President-Speakers Named.

SOUTH ORANGE, N. J., April 18.-A brillant scheme to gain the ear of the elusive ommuter and force on him an exploitaion of the Citizens' party platform has been conceived by Ira A. Kip, Jr., the broker, who is a candidate for village president under that party's banner. Most of the members of the party are commuters and all its candidates are, so Mr. Kip made up his mind that if they could get none of their fellow citizens out to night meetings he would beard them on the trains as they went to business in the morning. When the energetic candidate for president laid his plan before the party leaders they accepted it eagerly as a solution of a problem that had been worrying them for a long time.

The railroad campaign will begin tonorrow morning and continue every morning until a week from next Tuesday, when the election will be held. Twelve trains leave South Orange station on the Lackawanna Railroad every morning and every car of every train will be canvassed for South Orange commuters. The campaigness will make every effort to keep the South Orange men in one or up most of the programme of the Feis two cars and there the spellbinders will coil Agus Seanachas of the Cumann-na- go at them. It takes about forty minutes Gaedhilge, or, to put it more plainly, the to run into Hoboken and the campaign

It was impossible to get the comwith the Buidhean Cheoil of the society, he conductor of which was Mr.O'Mahony.

The Rev. Dr. Henry A. Brann was the chairman. Dr. Brann said a word or chairman again.

Candidate Kip is not only a member of the New York Stock Exchange but is a leader of society in the Oranges. He served as President of the village for 1900-02, at the time the work of building the trunk sewer to the Kill van Kull was started. There are six municipalities using that drain, and it was started among the men of South Orange.

started. There are six inunicipalities using that drain, and it was started among the men of South Orange.

The candidates for village trustees on the same ticket with Kip are Charles H. Burke, formerly United States Consul to Berlin; Henry G. T. Martin, a lawyer in New York, and Frank J. Hill, who has box factories in Brooklyn and Newark.

The Citizens' party is making the hardest fight of its history to oust the People's party from control, alleging that its extravagance has placed the village in a bad hole. Attention is called to the fact that toward the end of the fiscal year the employees of the village and several officies had their salaries held up for lack of funds.

"I propose if elected," said Mr. Kip today, "to do all possible to give an efficient, economical administration, with lower taxes and good roads. If mistakes have been made in the past we intend to profit by them.

"We have to do this sort of thing in this strenuous age to put ginger into the campaign and answer those to whom the shorter and uglier word might be applied. We don't expect any objection from the railroad management. Some of them are themselves members of the party and they certainly won't put any obstacles in the way of its success. We aren't going to knock the railroads, and our campaign will have nothing to do with rate making or trust busting, so you see there will be nothing of an incendiary character from their point of view. It is the only way to get at the commuters, you know."

NEW ROCKEFELLER MONOPOLY Feared by Southern Bishop, Who Thinks

He Wants to Control All Education. ATLANTA, April 18 .- Charging that it is an ally of John D. Rockefeller's General Education Board, which he alleges is seeking to control the schools and colleges of the United States, Bishop Warren Candler of the Southern Methodist Church to-day denounced the conference for edu-cation in the South which has just con-cluded its twelfth annual session here.

Bishop Candler said: Let us not imagine that the General Education Board will stop with controlling the colleges through its allied body, the Southern Education Board. public opinion and direct legislation concerning the common schools. With its professorships of secondary education tacked on to the State universities it will project its influence into the high schools of the country. With its agricultural lectureships it will lay hold of the farmers. Then after a time when its conferences for education in the South together with its other schemes of propagandism have done their work, we may expect to see the old Blair bill for Federal aid to education.

After Federal aid to education is secured we may expect to see started a movement to make the national Commissioner of Education a Cabinet officer.

Mr. Ogden, one of the leading spirits in all this movement, favors Federal aid to education in the South. With Federal aid we must submit to Federal supervision not raise the bureau of education at Washington to an executive department and make the Commisssioner of Education s

Shall we have that sort of method in edu-cation? Dr. Washington Gladden considered Standard Oil money tainted. Shall we have tainted education also? Bishop Candler concluded by urging the South to accept no gifts from the Rockefeller board.
